

Fractions Worksheet Class 2

Name: _____

Class/Sec: _____

Date: _____

Marks: / 40

A. Fill in the blanks.

1. A whole is divided into **2 equal parts**. Each part is called a _____.
2. A whole is divided into **4 equal parts**. Each part is called a _____.
3. The top number of a fraction is called the _____.
4. The bottom number of a fraction is called the _____.
5. Two halves make one _____.

B. Write the fraction.

1. One half = _____
2. One quarter = _____
3. Two halves = _____
4. Three quarters = _____
5. Two quarters = _____

C. Shade the given fraction.

(Shade the required number of parts.)

1. Shade $\frac{1}{2}$: ☐ ☐
2. Shade $\frac{1}{4}$: ☐ ☐ ☐ ☐
3. Shade $\frac{2}{4}$: ☐ ☐ ☐ ☐
4. Shade $\frac{3}{4}$: ☐ ☐ ☐ ☐

D. Circle the correct fraction.

1. One out of two equal parts $\rightarrow$ ($\frac{1}{2}$ / $\frac{1}{4}$)
2. One out of four equal parts $\rightarrow$ ($\frac{1}{2}$ / $\frac{1}{4}$)
3. Three out of four equal parts $\rightarrow$ ($\frac{3}{4}$ / $\frac{2}{4}$)
4. Two out of four equal parts $\rightarrow$ ($\frac{1}{4}$ / $\frac{2}{4}$)
5. One whole $\rightarrow$ ($\frac{1}{2}$ / $\frac{2}{2}$)

E. Match the following.

Fraction	Name
1. $\frac{1}{2}$	a. Three quarters
2. $\frac{1}{4}$	b. One whole
3. $\frac{3}{4}$	c. One half
4. $\frac{2}{2}$	d. One quarter

F. Write >, < or =.

1. $\frac{1}{2}$ ____ $\frac{1}{4}$
2. $\frac{1}{4}$ ____ $\frac{1}{4}$
3. $\frac{2}{4}$ ____ $\frac{1}{4}$
4. $\frac{2}{2}$ ____ 1
5. $\frac{3}{4}$ ____ $\frac{1}{2}$

G. Complete the fractions.

1. One half = ____ / 2
2. One quarter = ____ / 4
3. Two quarters = ____ / 4
4. Three quarters = ____ / 4
5. Two halves = ____ / 2

H. Word Problems.

1. A pizza is cut into 2 equal pieces. Riya eats 1 piece. What fraction of the pizza did she eat?
→ _____
2. A cake is divided into 4 equal pieces. Rahul eats 2 pieces. What fraction did he eat?
→ _____
3. A chocolate bar has 4 equal pieces. Sam eats 1 piece. What fraction is left?
→ _____
4. A watermelon is divided into 4 equal parts. 3 parts are eaten. What fraction is left?
→ _____

I. True or False.

1. $\frac{1}{2}$ means one out of two equal parts. _____
2. $\frac{1}{4}$ means one out of three equal parts. _____
3. $\frac{2}{2}$ is one whole. _____
4. $\frac{4}{4}$ is one whole. _____
5. $\frac{1}{4}$ is greater than $\frac{1}{2}$. _____

J.

1. Which is greater: **$\frac{1}{2}$ or $\frac{1}{4}$** ? _____
2. Which is smaller: **$\frac{2}{4}$ or $\frac{3}{4}$** ? _____
3. How many quarters make one whole? _____
4. How many halves make one whole? _____
5. What fraction of 4 apples is 1 apple? _____
