a) English b) Maths
c) Science d) History
4. What does Riya want to become?
a) a teacher b) a doctor
c) an engineer d) a pilot

Passage 2

The Sun is very important for us. It gives us light and heat. Without the Sun, there would be darkness and cold everywhere. Plants need sunlight to make their food. Animals and birds also depend on plants for food. The Sun helps in the water cycle too. It heats the water in rivers, lakes and oceans. This water turns into vapour and forms clouds. When it rains, the water comes back to the Earth. We should always be thankful to the Sun.

B. Answer the following questions.

1. Why is the Sun important?

2. How does the Sun help in the water cycle?

3. What would happen without the Sun?

A. Choose the correct answer.

1. What does the Sun give us?
a) light and heat b) rain and snow
c) wind and clouds d) thunder and lightning
2. What do plants need to make their food?
a) air b) water
c) sunlight d) soil
3. The Sun helps in the _____.
a) day and night b) water cycle
c) growth of mountains d) movement of trees
4. What happens to the water in rivers when the Sun heats it?
a) It becomes ice. b) It turns into vapour.
c) It disappears. d) It becomes rain.

Passage 3

Amit had a pet dog named Bruno. Bruno was brown and white in colour. He was very playful and smart. Every morning, Bruno would run around the garden and bring Amit his shoes! They would play together for a long time. One day, Bruno fell sick. Amit took him to the vet. The doctor gave him medicine and asked Amit to take care of him. Amit did everything for Bruno. After a few days, Bruno got well again. Amit was very happy.

B. Answer the following questions.

1. What was the name of Amit's pet dog? _____
2. What did Bruno bring to Amit every morning? _____
3. Why did Amit take Bruno to the vet? _____
4. How did Bruno get well again? _____
